ICDF Discussion Forum

Imagine a group of Christians, who happen to be dancers, are sitting at a round table each with his / her favourite drink and snacks. Imagine them talking about different topics that are important to them, sharing ideas and viewpoints. They do not always agree but by disagreeing and voicing their viewpoints they begin to understand each other much better. They talk about dance and all the different facets thereof, theology and how it applies to their Christian walk and ministry, and they also talk about how they live in a world that is not always accommodating and the challenges that they face.

This is what we are planning for the ICDF Discussion Forum. How it will work out we cannot say, because the outcome will depend on the participation of those engaging in the conversation. So why not book your seat and join in what we hope will be an enriching experience.
