October 2019

Launch of Mobile Device Friendly Website

This is an exciting day for us! After many years in the planning and the fundraising, we can announce that the new Mobile Device Friendly Website is ready and has been launched.

It has been our dream to make the website more accessible for those who live in countries where people rely on their mobile phones for internet connectivity. This will be a game changer for us, especially during the times of conferences / gathering. A great job by our Website Team - our thanks to you all.

Work now continues to complete the updates and, when this is done, we will then be moving on to the next phase of upgrading the website sub-sites. This includes the Spanish website, the Gatherings / Conference website, and the Foundation website.

We thank you all for your patience during this transition time.
